#20 DECORATIVE LIGHTING  
IN ARCHITECTURE  
MAR/APR 2017

HIDEKI YOSHIMOTO

OUTDOOR LIGHTING

REDWOODS TREETWALK

#### 1. Infinity Manooi

Designed by János Héder, Infinity crystal chandelier awakes the power of eternity. Never ending loops awaken the power of the infinity and symbolise eternity, empowerment, and everlasting positivity. LED presents new possibilities and different ways of integrating light into fixtures and other objects.

#### 2. Overlay Slamp

The main light source, as well as a courtesy light located in the base, create solid illumination on any surface without disturbing the atmosphere. Creating a peaceful, minimal niche for contemplative work, the brushed copperflex adds a refined richness to the minimal shade, furthering the sensual plays of light.

[www.slamp.com](http://www.slamp.com)

#### 3. Guise Vibia

The Guise collection forms an essemblage of beautiful objects that integrate perfectly with spaces, combining a warm atmospheric lighting with the transparency and richness of glass. Guise explores the phenomena that light conducted through glass is invisible until it meets the edge or is refracted by surface striations.

#### 4. bonnie e clyde Zafferano

Handcrafted mouth-blown glass obtained with a ribbed finish, *bonne e clyde* is available in two different shapes in clear, amber, light blue or amethyst. It comes in a singular or modular version with a canopy, of three, five or eight lights. With matte grey or white painted metal parts, the collection can be customised.

#### 5. Diamond 7 Filament Style

The Diamond 7 from Filament Style provides a clean and simple design. Favouring reduced aesthetics and geometric shapes, the lamp highlights the delicate glow of filament lighting through its handmade cage, creating forms that keep it simple to complement the aesthetic power of a classic lamp.

#### 6. Random Studio Italia

Random features melted blown glass in an unconventional design, allowing a unique and emotional effect intertwined with the use of precious materials and details. Appearing like soap bubbles floating in the air, Random is suited to a variety of arrangements in clusters thanks to its modularity.

# Euroluce Preview

April 4-9 2017, Milan, Italy

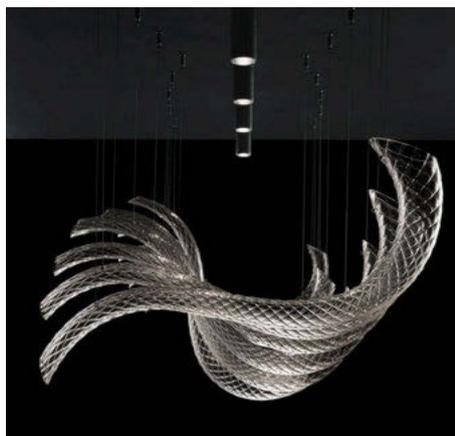

Euroluce  
Salone del Mobile

With 38,000sqm of exhibition space and 450 industry leading exhibitors, half of which are foreign, the international lighting exhibition - now in its 29<sup>th</sup> edition - is recognised as the global benchmark lighting exhibition, where technological innovation and design culture take centre stage. The array of goods encompasses products for outdoor, indoor and industrial lighting to lighting for shows and events, hospital lighting and special use lighting, home automation and lighting systems, light sources and lighting application software. Euroluce stands as an avantgarde trade fair in the field of eco-sustainability and energy saving in both the decorative and architectural lighting technology sectors.

Swing  
Barovier & Toso

Barovier & Toso's Swing ceiling lamp features parts that can change its position depending on the vision of the client, giving rise to ever changing combinations and lighting scenarios. Like all Barovier & Toso collections, it can be made to measure and thus suitable for use in interiors and for large dramatic installations.

Flintstone  
Brand Van Egmond

Every stone is unique as well as being a functional counterweight. A movable branch arm allows the light to be adjusted and easily moved. With finishes either in black, white or high gloss nickel, the collection has a basic, yet classic appearance. Every stone captures the emotion of eternity as well as being used as a function counterweight.
